

## **Narrative**

Above All Things in conjunction with All Things are Possible will provide housing to women who suffer with a substance use disorder regardless of insurance status or ability to pay. We will provide access to evidence based treatments, supportive guidance and a safe, monitored, substance free environment while sharing a message of faith and hope. Above All Things will provide housing that meets or exceeds the standards set forth by the certifying agency, Indiana Affiliation of Recovery Residences (INARR).

It is our goal to meet the criteria for acceptable recovery housing set down by the local Probation, Community Corrections and adult Drug Court .We are the only Recovery Residence currently in Miami County or the neighboring counties of Cass, Fulton and Wabash. Our residence will be staffed 24/7 by volunteers trained to recognize the unique needs of our residents and overseen by a director trained in recovery coaching. Funding will come through public donation, fundraising projects throughout the year, community churches, local business, online donations and a shared donation by the individually employed residents. The ultimate goal is to assimilate our residents back into the community with the skill sets necessary to be self sustaining and the ability to successfully maintain recovery.
